12<sup>th</sup> May 2017

## **SATs Tests**

Year 6 should be congratulated for their excellent attitude in their SATs tests this week. The tests were very demanding and required a lot of concentration, and they stepped up to the challenge. We will not know how well they have done until July – this is a long wait, but the whole country's test papers have to be marked before the results come out, and obviously that is a lot of papers!

## **Walworth Garden**

Reception and Nursery went to the Walworth Garden this week and had a lovely time. This was followed up by an email from Walworth Garden saying that our student and staff have been an absolute delight. They were particularly impressed that each class had been very respectful about the delicate ecosystems there. They are planning a big 30<sup>th</sup> birthday event on the weekend of 29<sup>th</sup> July, so you may want to put this date in your diary.

## **St. Paul's Ten Commandments Competition**

School Council have chosen 4 winners and several runners up for the St. Paul's Ten Commandments competition. The standard has been very high – well done to all the entrants. Miss Crannitch will, announce the winners next week.

## **Pasley Park Art Project**

Years 3 and 4 are involved in an art project with Pasley Park, and the project leaders have been very impressed with the art work and engagement of the pupils in this project. They want to have a big event to share the work with the community, and of course celebrate it with the children and parents. They are proposing to create an event on 30<sup>th</sup> June, after school, and it sounds as if it will be lively and fun, with a DJ and refreshments. Put the date in your diary!

## **Pentecost Service**

The Pentecost Service takes place at St. Paul's Church, at 9.15 a.m. on Friday 26<sup>th</sup> May, the day before the half term break. All are welcome.

## **Parents' Workshop on Maximising your Child's Potential**

I am very pleased to say that I have managed to secure Professor Valsa Koshy to come and do a workshop for parents about maximising the potential of your child. Professor Koshy has just published a book with her daughter, who is a doctor, and will also come to speak. This is a great opportunity, and I would like a huge crowd for them. So please put July 5<sup>th</sup> after school in your diaries!
